

# Westminster City Council Workforce Profile Report 2023

## Introduction

Westminster City Council relies on and values its diversity. The council publishes this annual report to show the diversity of its workforce<sup>1</sup> in line with the Equality Act 2010.

This report, which profiles gender, age and ethnicity will help to shape and inform policy such as talent attraction and retention, career and personal development and succession planning.

## Part-time and Full-time distribution across gender

Across the total workforce 90% of staff work on a full-time basis. There are more females than males in the total workforce, so whilst the proportion of the female full-time workers is lower (85%) than the male proportion (96%), the actual number is higher (1382 women compared to 1077 men).

TABLE 1: FULL TIME AND PART TIME EMPLOYMENT BY GENDER

	Number of Part Time Employees	Number of Full Time Employees	Part Time Distribution	Full Time Distribution
<b>Female</b>	236	1382	15%	85%
<b>Male</b>	47	1077	4%	96%
<b>Total workforce</b>	283	2459	10%	90%

## Workforce diversity headlines

In previous years, for some of the protected characteristics, there were several records where either the data had not been recorded at all, or where employees preferred not to respond and selected the “prefer not to say” option. The provision of diversity information by the employees remains voluntary, so there are still some gaps. However, in recent years, we have seen a positive trend where the voluntary disclosure of protected characteristics has improved, as shown below.

<sup>1</sup> HR system data as of March 2023, 2,742 records have been used for this report. The workforce is defined as all staff employed by Westminster City Council with the following exclusions: *casual staff, sessional workers, Westminster Adult Education Service, and the schools’ workforce.*

## Ethnicity

As mentioned, disclosure of diversity information remains voluntary, however we have seen a positive trend with the number of records where there was no data held falling to just 1% in 2023 from 17.9% back in 2018.

There has also been a positive decrease on the “prefer not to say” figure from 15% in 2019 to 7% in 2023.

Over half (51%) of the workforce identified as either White British, White Other, White Eastern European or White Irish and 41% of people identified as Global Majority.

Figure 5 shows the percentages across each ethnicity recorded on our system.

### Disability

In 2023, 15% of the workforce have disclosed a disability, compared to 14% in 2022 and 12% in 2021. The remaining 85% are recorded as not assigned<sup>3</sup>. A further breakdown of the 'Not assigned' to identify the 'not disabled' and 'prefer not to say' groups would provide a more complete picture of the workforce, however this is currently unavailable on our HR system.

**Figure 6** shows the declared disability across our workforce.

<sup>3</sup> 'Not assigned' records refer to staff who either prefer not to say, have declared themselves as not disabled or have not completed this information.
